AVINEO

Private Aviation / Small Airlines / Charter Handling Software Web based with Mobile APP

|			
Administration	Customer / CRM / Commercial	Private Aviation / Charter Quote & Booking	Operations Control Center
Cabin / Crew	Safety / Escalations / Notifications	Ground Handling / Services	Flight Dispatch
Engineering / CAMO	Training / Authorization	Arrivals / Transportation	Dashboard
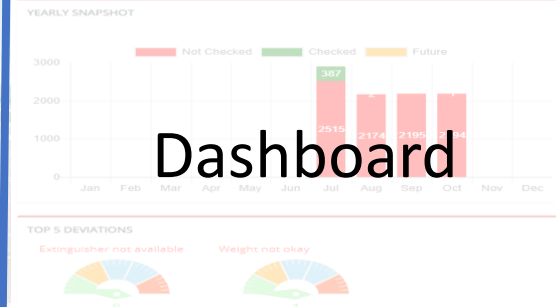

Jet Handling / Charter Flight Readiness

## -Multiple Stakeholders/Agencies
-Numerous Activity / Tasks

- Avineo can configure various agencies / vendors associated with you as the activity
- **Automatic Billing & Calculations** – Based on **Charges** by vendors / agencies for various (different) activities performed
- Carrier's tariff will include a rule stating that the total charter price is the sum of various charges – streamline the process

Aircraft Readiness – Vendor Activity Dashboard
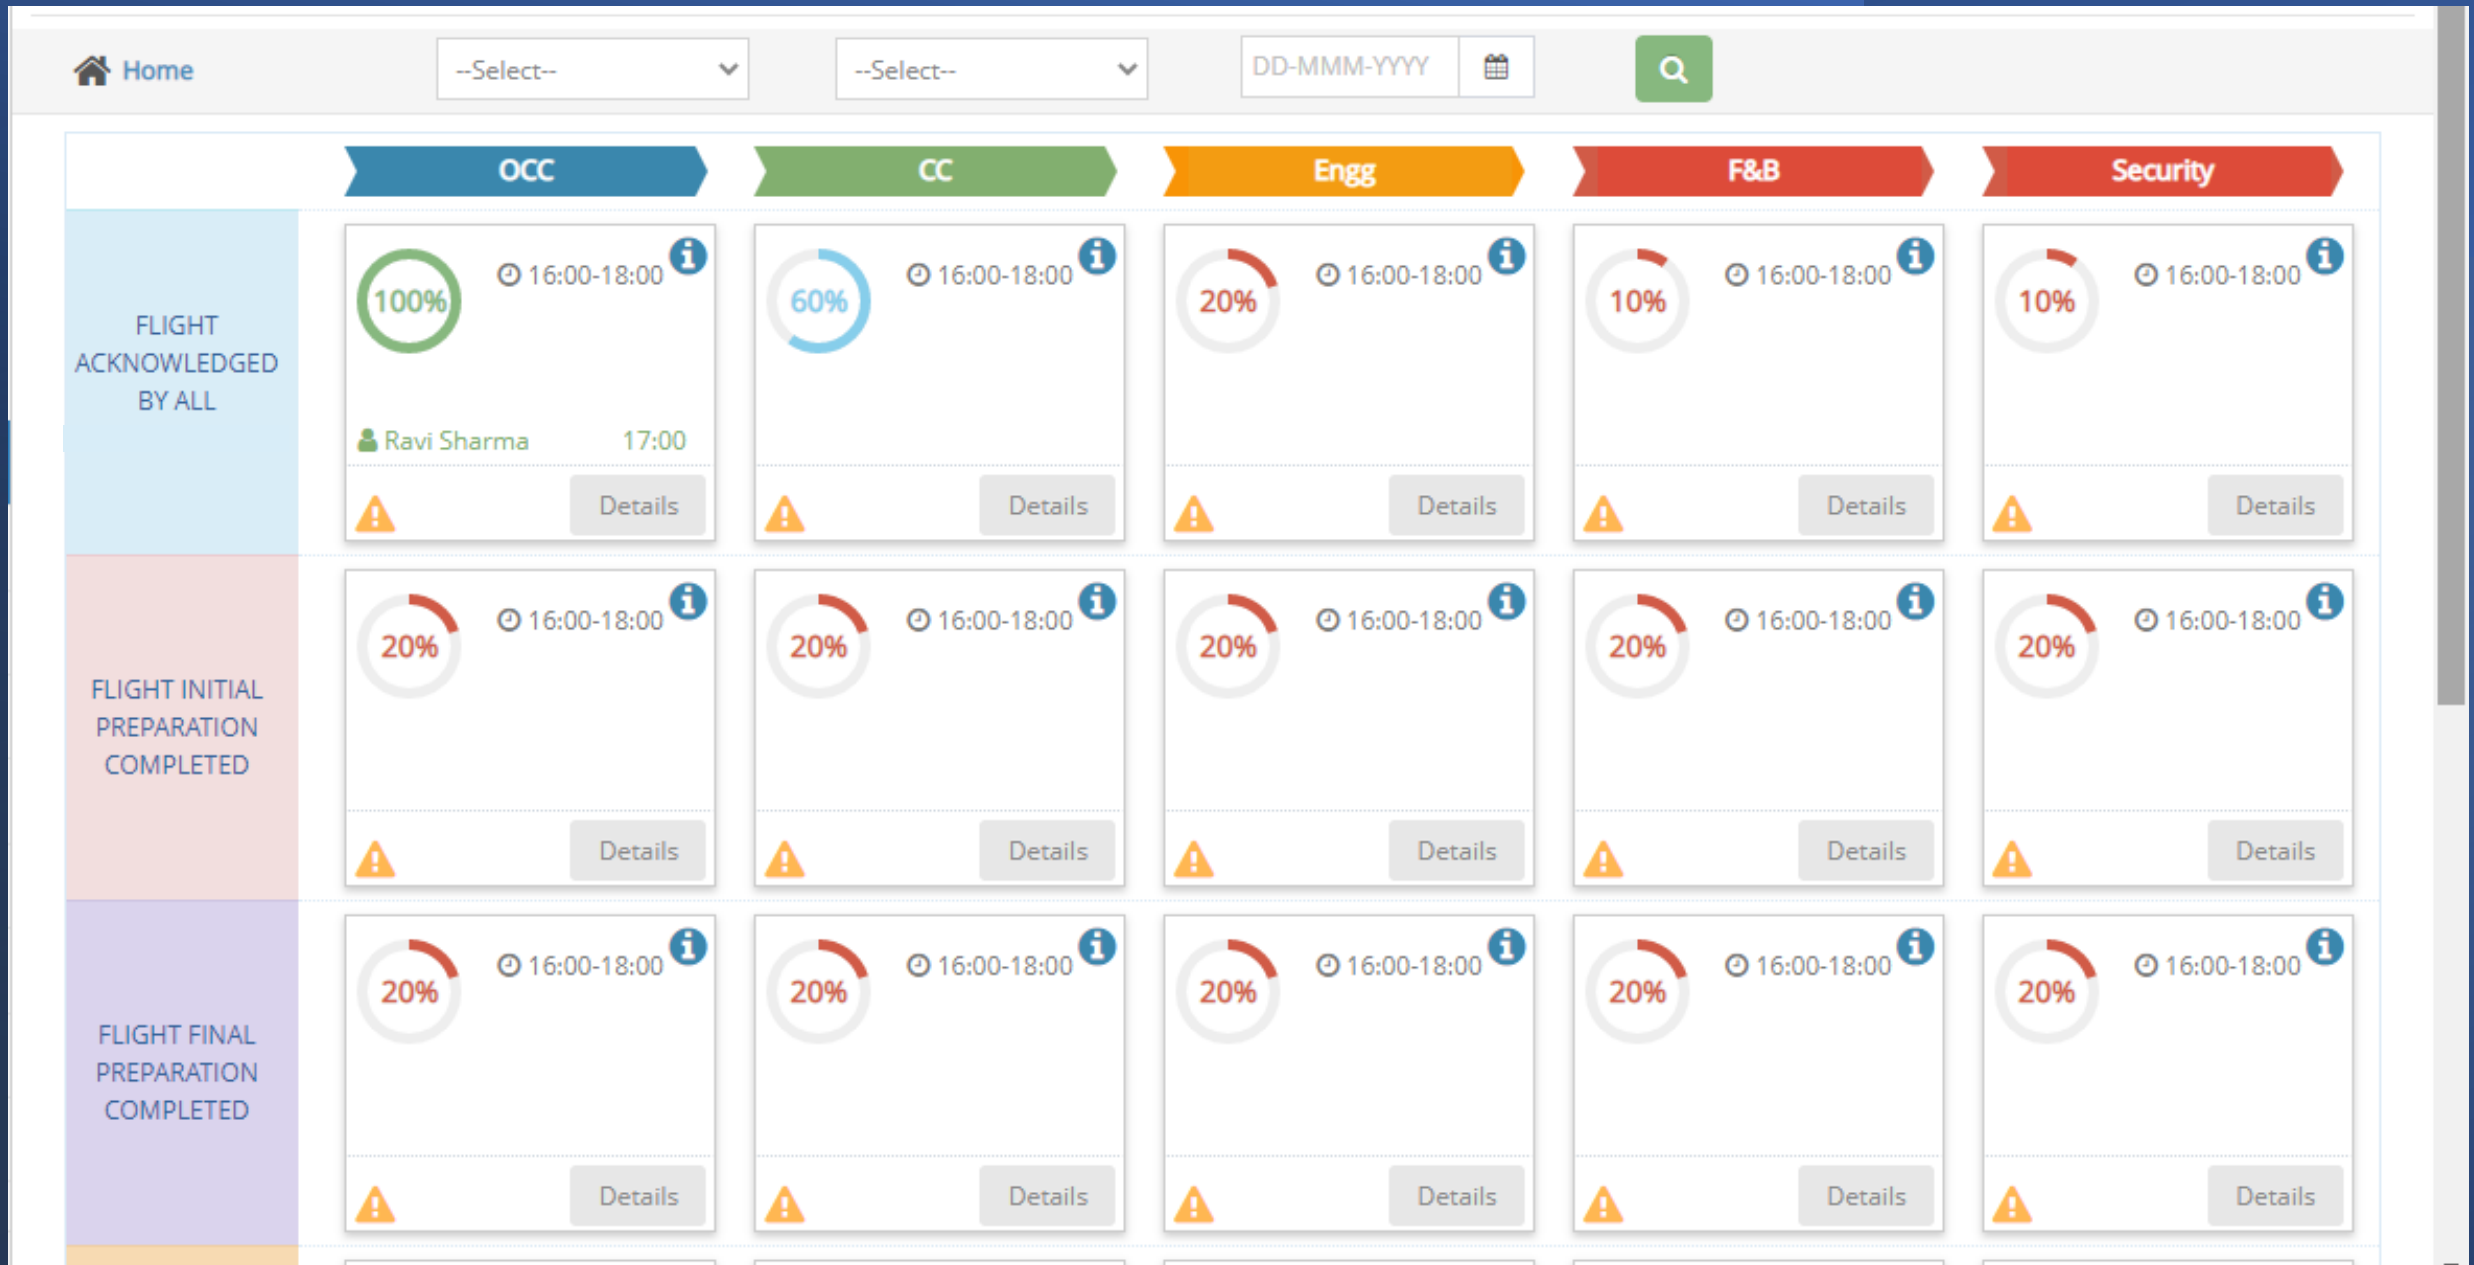

Full Integrated Web & Mobility - Efficiency / Birds Eye View of Operations
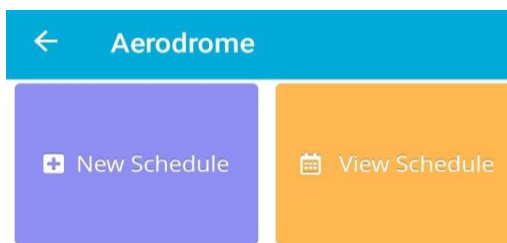

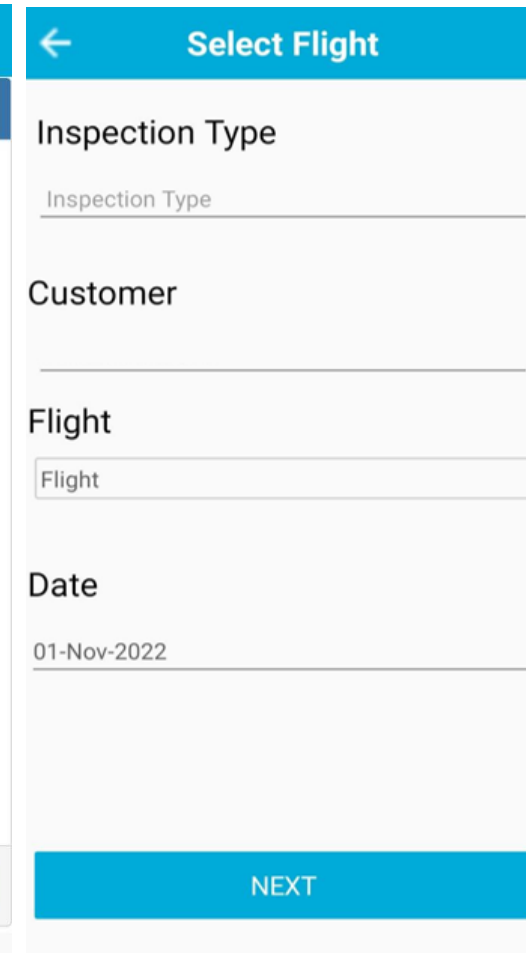

- All stakeholders use a mobile application to view set of tasks to be performed – checklist

- Multiple stakeholders will execute their checklists and a real-time dashboard, metrics would be available to the head

- Historical details across flights

- Analytics and reporting

Crew Training, Planning and Administration

- Recording of training related data
  - Setting of training schedule
  - Training enrolment
  - Training attendance
  - Training completion
- Learning outcomes for audit and improvement purposes.
- Provide an in-depth way of utilising all training methods to record which staff are trained and areas for improvement.
- Tracking training non-conformance / non-attendance etc.

Training

Ground Tech Refresher	Sim Training	IR/LR Check	Route Check	Dangerous Goods
Aviation Security	CRM	SEP	Training Forms	Training Notes

- Configure and address any processes / gaps / chronic pain areas tailored for Aviation Industry

- Single unified software platform to configure and manage multiple processes efficiently

- Help eradicate all silos of adhoc applications / Xcel sheet / Google Sheets in a cost effective way

Avineo initiative is focussed on…. *Digital transformation of Processes* which are *outside the bounds of conventional ERP or any enterprise software*, to connect these processes through point solutions.
